EXPERIENCE

MODERNIZATION OFFICE NEUQUEN'S MUNICIPALITY

Jul 2022 - Present

Software Engineer

Neuquén, Argentina

- Designed, developed and implemented scalable software applications that facilitate Neuquén's citizens, businesses, and enterprises resulting in a 30% increase in user engagement and a 50% decrease in page load time.
- Led the development of highly responsive and scalable software solutions for clients in the retail and e-commerce industries. **(React, Angular, Express, NodeJS, NestJS, PHP, Laravel, SQL, MongoDB)**
- Collaborated with product teams to gather requirements and create technical specifications.
- Worked closely with cross-functional teams, including UX/UI designers, to ensure that software applications meet user needs and business goals.
- Actively participated in code reviews and provided constructive feedback to team members, resulting code quality improvement and development errors diminishing.
- Contributed to the development and innovation of the company's internal tools and systems, increasing workflow by 50%.
- Utilized Git for version control and code management.
- Implemented agile development methodologies, including Scrum and Kanban, to ensure efficient and timely delivery of projects.
- Produced detailed documentation of the office's software applications for the developer's team.
- Recruited and mentored junior software engineers, providing guidance and support in the development of high-quality software solutions.

UNIVERSIDAD NACIONAL DEL COMAHUE

Oct 2020 – Jul 2022

Software Engineer

Neuquén, Argentina

- Led the re-design and refactorization from Yii framework to Laravel of college's event platform "Juntar" to improve its scalability, performance and user experience. **(Laravel, Tailwind, MySQL, LiveWire, Jetstream)**
- Collaborated with college's development team "Euclides" on its electronic electoral system "Gukena". **(SIU-TOBA, PHP, Bootstrap, PostgreSQL)**
- Contributed to the college new website design, development and accessibility implementation. **(Wordpress, PHP, MySQL)**
